correspondent of the U. S. Gazette says that more and of a prophet; but if these things ere not arrested like causes will produce like effect; and I tall you whose egitation ceases in the constry, to reference to Kansas, and the public mind can be brought to consider the westeful expenditures of the Federal Government, the parity that stands by them end maintained them will be carried eway by entresistible current in 1860. I am to prophet arrest the will be carried eway by entresistible current in 1860. I intend as fer as I am outcored. that may skirts shall be clear of these nanocosrary price to be paid nuder the original contract affords. that my rivits shall be clear of these nanocessary price to be paid under the original contract affords a perfect of the people's money by the F-detal Government, for such I know them to be "Ta this Senator Davis replied: "The fat of the Democratic party does not heng on the reduction of its annual expenses. I hold an administration responsible that wastes e dollar. I appland one that judiciously expends \$100,000,000,000."

They claim to asve \$65,000 at one point, while that wastes e dollar. I appland one that judiciously expends \$100,000,000,000."

They claim to asve \$65,000 at one point, while formation of a great Netional Union party, such as it wastes the state of the profession; it is ell judiciously expends \$100,000,000,000."

They claim to asve \$65,000 at one point, while formation of a great Netional Union party, such as it wastes the profession; it is ell judiciously expends \$100,000,000,000."

They claim to asve \$65,000 at one point, while formation of a great Netional Union party, such as it wastes the profession; it is ell got to be represented to the party of the whole of the present Advised to a policy of the profession which will assemble in this city on the public and cover Mr. Cobb's imaginary retreatment four-fold.

They claim to asve \$65,000 at one point, while or an important political movement.

The organs here very completent senting condition of political greatment of the profession of th

There have they justify their profusion; it is all judiciously expected—for the party. He will credit for the Administration of the certainly have occasion to applied the present Administration for we can show that the expenses of this government fall rwy little short of \$100,000,-000, which is at least \$20,000,000 more than it should be housely—for thready the first have from the authority of the Secretary of the Treasury stated it to be \$80,000,000, which is at least \$20,000,000 more than it should be housely—for the service of the fixed year to good, one of the fixed party in the compact of diagrams and flowers. The little Winged Powers were made by the concentration in enstioned convention of this port and to without fact. The proposition is experted which how a very must hide, which how a very must hide, which how a very must high. The proposition is the compact of diagrees a convention of delegated his belief that the Administration was a fixed from the service of the fixed year to good, 000,000. Keep in mind the text with which we started, and and a very small fractions of the party. He would don't be appropriations to be \$20,000,000. The party is in nove that the expenses of the Googness show that these reductions were made to the Opposition in all the States. To render this easembly effectly and the proposition of the conversation of delegated his belief that the Administration was a state of the fixed powers. The little Winged Powers. We prosonated the power with mind to will have the convention of the opposition in the state. The proposition is essentially effectly and the proposition for horner in the United Powers. We prosonated the power will indeed, who it was that any time the desired powers. The little Winged Powers. Which no work made they believe the convention of the opposition in all the States. To render this easembly effectly and the proposition for the convention of delegated his belief that the Administration was powered. The proposition in that State to good the proposition in the Stat

building the Louisville and Nashville road, as attempted by the issue of that paper on the 14th of this month? In the Courter's efforts to serve its friend and patron, it may check the moral seems of those who know the facts. But we are not disposed to prolong the subject. Why attempt to distarb the humany of the Board of Directors now doing such important service ta the city? Let well enough alone is a good mexim, and to coofine partisan acceptive to the natural knumels is a most proper rate of practice. We sincerely trust we shall hear no more of these iavidious comparisons, end that Courter will obtain from a course of policy which means for the seal of the board of Directors of the construction and divisions were bindrances to the proper development of the constructive sentiment of the country—Whigs could not be lidaced to enlist additivation were beindrances to the proper development of the constructive sentiment of the country—Whigs could not be lidaced to enlist additivation were bindrances to the proper development of the constructive sentiment of the country—Whigs could not be lidaced to enlist additivations were bindrances to the proper development of the constructive sentiment of the country—Whigs could not be lidaced to enlist additivations are believed prime to the country—Whigs—although the questions which between the South has probed by the standard of the constructive sentiment of the country—Whigs could not be lidaced to enlist additivations area believed prime of the constructive sentiment of the country—Whigs—although the questions which between the South as precise to religive the benefit of who managed and pairs, have highly divided them hed in a great measure over the slavery question from the North now on the question," but hears, "in the South, on the contrary, the first matterings of a great temper!" The Republican might have gone further in its self-gratule frequency of the bearing of the sead of the proposed to eccomplish. Lite of the bound of the construction of the south of the coun

revenue of the Government has been grasily and (by Damocratic legislation) whilst the manifesters made by Congress are very large in tent." And the ferther answer which we shall all the bean a many new conducts have been and by the party in power through which the most may be the people has been powered into the most representative. Habits of predigality in legistrate and processes. Habits of predigality in legistrate and an erchists.

The morning after the French occupation of the Mississippi to the Pacific Occupancy with and the ferther answer which we shall all the occupancy of the people has been powered into the most representative and the most representative and the processes and t broken up to make wey for this Union party, in broken np to make way for this Union party, in which ell will be pieced on an absolute equality.

The movement must, therefore be beginn by the gladness of many hearte did not profsus that

CRISTADORO'S HAIR DYE,

IT IS NOT TOO MUCH TO SAY SINCE ALL,

Chore.—We think it pretty will settled now that we are to have no famine is our land this year; although we are in the midst of a most suprecodes to drouth, the already harvested crops of our of industry. Becoming established, they though we are in the midst of a most suppression to drouth, the already harvested crops of our country are protity good, especially wheat. We have never known the wheat crop so generally good as this year; although in some limited sections the injury by frost has summented to entire destruction. One and have are not generally good as this year; although in some limited sections the injury by frost has summented to entire destruction. One and have are not generally good as the property of the section of merry making and the section of merry making and the section of merry making and the entertainers nuch profit. These fairs differ in their character; some being general, for the sale river we learn the crops are much more promising. But core, that universal dependence of the West, is altogether the most unpromising of all. The long drouth (we have had no rain upon our place to wet the noil two inches deep since the first of May) has greatly effectually destroyed all hops of even a half crop with us, and, in our correspondence from the finant corn growing ragion of Kentucky, the compatible of the crop of treeses they have considerable direction no to the feasibility of building agricultural tairs, or of adding a department to our exhibitions, to be devoted especially to purpose. plaint is the same. In fact, avery where east the continuous properties are the continuous the prospect is no better. We must remaind our readers to husband well all the fedder they may be able to save, that their stock may be bidden to the continuous the continuous the continuous the continuous the continuous transfer of the continuous transf carried safely through the winter.

Means of bringing into notice the results of impro-culture, thereby leading others to adopt the meth by which the fine appearance of produce and at Whenry Ward Boerber, is so life-like as we have en it displayed in the West, that we think it must

when it displayed in the West, that we think it ment have been detained, too many of our anneared transmed sawke:

Acclamating a Plow.—The other day we were riding past a large farm and were much gratified at a device of the owner for the preservation of his tood. A good plow, apparently new in the e-ring, had been left in one common of the fleld, data ing in the furrow, just where, four months before, the boy had finished in a citis. Probably the timber needed on among—it was certainly getting it. Perhaps it was been the chiaf attraction. In the relection of a many—it is there are neve time, in the hurry of the epring work, in dragging it from the cheef. Porhaps he covered the share to keep it from the elements, and caves it most menting. Or, again, perhaps he is trow-that the beauty possible that he was an Irdaman, and had planead for a spring curp of plow.

After we get to sleep that night, we drammed a dream. We seen that that man keep low.

SUPPOSED SLAVER .- Some weeks eines the ship tom Hone in the usual manner. The ship was fit-ted for a whaling voyage under command of Capt. Silvia, who is the sole owner of the ship. The ship cleared from the Cuttom House on Tuestific men concede that the beet way to determine whether bread is good or bad is by the taele. No of American common on board. For two weeke past, a U.S. Deputy Marshal has occasionally made his eppenrance in the city, and an officer of the United States Government has remained here during the whole time, though unknown to our citizene. at Boston, on account of information there filed, the revenue cutter Campbell, Capt. Clark, stationed a New London, was ordered to this port, and arrived alongside the Atlantic this morning. What the in-formation was, and by whom filed, are fects which brandy is not always to nded on truth, for more formation was, and by whom field, are fects which fictitious Bordeoux is made by pumping a pipe of the cutter would not strive here before the ship

New York, July 26.

It is said that the New York Railroad managers hope Mr. Gurett's agent will convent to the proposition for increased freight. The New York Ceutral agreed to put up all classes of freight if the liaitimore Read abetes part of its water rates. An enewer is expected today. The ratee are to be blading August first.

The New York Times Washington correspondent says: "The draught of a treaty just sent here by Hon. Robert McLane to be gubmitted to our government contains provisions of the very highest

Mrs. Duffy and the arrest of a man numed Keefer. Ills examination resulted in his discharge. Tha

of the Maxican government to accept a medified term of a protectorale at the hands of the United States; in other worth to solemnias another treats in States; in other worth to solemnias another treats to form of all protectoral at the hands of the United States and garden and the solemnia and defensive, but are stated as they are the solemnia to each engagement.

"Mr. Keefer, the meyor, after hearing all the states of the solemnia and defensive, but the states and garden and the solemnia to each engagement."

"In New York Heraid, in an editorial on the effects of the presson the country five do not meet them calluny and with foresight. View and they may be of serious imports to this country five do not meet them calluny and with foresight. View and your position and power and the solemnia tion in the same aspect with the results of the war and its endedn termination in the same aspect with the results of the same aspect with the results of the war has beeditud no--it has increased the period on the same aspect with the results of the war not without menace to our commetcial affairs. The local cays: While the news from Europe appears most unsustatefactory for two important in the solemnia special another posit if we do not exercise than the succession of the present of the present well exercised the power of the case of the present well exercised the power of the case of the present well exercised the power of the case of the present well exercised the power of the case of the present well as the private of the same aspect with the results of the same aspect with the same aspect with the results of the same aspect with the

NEW YORK, July 26.

The Herald's money article says the restoration of peace in Europe, the most important event that has happened since the war broke out, produced little or no effect in commercial or financial circles item today. The new contract is not not a second of the contract of the commercial or financial circles item today. The new contract is not necessarily the contract of the contra street, he was current to be something of the condition of Mrs. Duff-sy last night was thought to be more favorable, though that fact did not much increase the hupe concerning her life, as the ball is still in the brein, and no attempt has been made to remove it. writes from Marshall, Texte:

Col. Clough, the district attorney, informe me today that he has not dismissed the "State enit" against the Pacific Railroad Company, but that he has agreed so te do when the sum of flifty thousand dollars is paid, the amount specified in the recond part of the second article of the terms of company miss between the old and new compeny. No positive day is fixed when the amount is to be peid, but it is understood that it is to be done before the eit.

The New York arrived this evening with dates from Europe to the 12th, not quits so late as you have a ready received by telegraph, and containing.

The Piedmonters Grazaite coutsine a decree by the Governor-General of Lumbardy a soliciting the old Anstrins laws which made a difference between the inhabitacta because of their religious opinione.

These laws, it is observed, are centrary to that goals in other parts of the monarchy, and are incompatible with the principles of mission richellistics. It is therefore decreed that up to Lombard provinces all the citizene, whatever the religion sheely profess, are equal before that up to Lombard they profess, are equal before the law, and sender provinces of the monarchy. All ordere and regulations of contrary effect are abrogated.

Converted to Spiritualize.—The Boston Courier announces aditorially, without contradictions the desired province the second are not all the sum of the monarchy to the same and containing of the principles of mission they profess, are equal before the law, and shall equally ejoy all civil and political rights as in the elder provinces of the monarchy. All ordere and regulations of contrary effect are abrogated.

Converted to Spiritualize.—The Boston Courier announces aditorially, without contradictions the contradictions and the read of the series of the action of the time day is fixed when the annuate is to be poid, but it understood like it is of the date of the terms of compressive the sold and even the sold and then the annual is to be peid, but it is day is fixed when the annual is to be peid, but it is day is fixed when the annual is the date of the series of the terms of the time day is fixed when the annual is the section of the annual is the annual is a system of the District Autority of the District Court, which is in section day when the annual is date of the series of the serie

[For the Lousville Journal.]

A dozen or a score; That prayerful knees and pleading eyes

They told me you had lovers-

Your queenly pleasure wore; They told ma I should see you, And hear you talk and laugh, And you would win a subject— And I an—spitaph!

And I an—spitable
They praised your merry ringlet;—
Your lipt... wild beet, he ware!—
Your feet that dance she thresholds
of every careless care;
They whispered of the pearl-depth
That in your spirit lies,
And many a little Yeaus born
In those blue seas, your eyed

Well-"voal, vidi"-rictim!-i heard your merry words,

Set : ree its singing-birds! This world in brighter cancline

I love your joy-lit beauty, Your motions number-eradied Your happy, finshing face. But most I think I'm loving

The hithesome little fair; That dances evermore between Your heart and eyes, so mercyl JULY 19, 18:9

These starzis ore distilled sweelness

The sun has passed itke a royal gnest

And his radiant train of hannered .lare

And follow their chief away.

The peris tolded in robes of mist

Leap ont from their tents of snowy cloud,

Float up to the western buls.

And as they gather the datary dew
They flush through air like an opal's hinsh,
Or the dreams that leve distills.

Oh some with me o'er the etar, pale land.

Come, oh come while the virginal flowers
Are veiled for the vesper prayer,
And our thoughts unchained will some to hear
Artain days of sty in an lele of peace,
And find all benatiful there.

BV JORN J. PLATT.

Beloved one, which lovelit, floating form Steals vidit to my dreams in heart and eye.— Where art thou, love? My heart is beating warm; From dreams alose I rise!

With laughter ringing from thy girshood years, Kissing the Future with a lace in bloom — The Past with cunbowed tears!

Steal from my dreaming to my waking heart; Awake, within my soul there stands alone Thy merhic soul: In lovely dreams apart

Thy sweet heart titls the stone!

Oft have I trembled with a maiden near,

Vel ed in her face; but I am dreaming here-sweet dreams woke in the Past!

May be then never yet hadet mortal birth Or childhoo! wings to Heaven with thee have flow My Eve in Paraduc! O'er all the earth Must Adam walk alone?

O that then breathest earth or Bragen I know

O waken in my morning thy pure eyes...
Thy voice from angel-air of dreams removet
Sweet Chence, hlow those strange seeds of Paradise
Together, flowering love!

O come, while yet my dream is in warm bloom

Come ere the rose-vell from the years depart: Cottags to me with thee is Palace: Come -Thy Palace builds my Heart !

P. S.

Almost Sufficiated to Death by Gas.—Simuel Lyon of Westchester county, N. Y., arrived in town a day or two since, and took up his quarters at Ames's sulcon, slongaids the Wauregan. Before getting into bed on Thorsday evening, he most innovantly him ont the gas instead of throlog it off, for it appears he had to knowledge of its nature. The next morning, at four e'clock, he was found partially dreased on the steps of the Wauregan, in a state of complete superfacion. He was insumediately taken in ont Dr. Fuller called, who soon succeeded in restoring him to conscionance. He states that he emont remember saything since he want to had, but supposes he must bave felt him-alf rafficating, and that upon hastily dreased himself and found his way somehow into the fresh air. He sit so much better after Dr. Fuller's treament, that he thought himself abla to waik to the cars for Hartford; hat on arr vicy at the Central Wharf be fall down quite insegable. He was parried to Geer'e drag core, where, through the accritions of Drs. Fuller and Geer, he was again testored. He is now determined to stay in Norwich until he feels sentirely recovered, and is equally dec ded to have nothing to do henceforth with gas.—Norwich (Ct.) Courler, Saturday.
